

It's HERE!

We now provide **In-office Teeth Whitening!** Zoom whitening, developed by Philips, which is the #1 patient-requested professional whitening treatment, capable of safely brightening your teeth by up to eight shades. Zoom whitening doesn't require trays, wearing strips for days or other hassles. All we do is apply Zoom whitening gel to your teeth during the appointment, and activate it using a special Zoom light for three to four 15-minute sessions.

We are starting off our new service with a **Limited Time Special for \$349 (only in-office whitening) or \$479 (in-office whitening + custom Whitening trays + 1 Tube Whitening Gel).** Our offer ends **September 1, 2017.** In addition, Philips is also offering a \$50 rebate.

If you are considering this service, please let us know that you are interested so we can discuss if you will be a good candidate.
